

Over 50 years of Academic Excellence.

# GRAFFINS COLLEGE

## DIPLOMA IN INTERIOR DESIGN

### About This course:

In this dynamic, practical, industry-relevant course, you'll learn 2D and 3D design skills and the decorative aspect of design. You'll delve into the exploration of color, materials and finishes, interior construction techniques, soft furnishings, and fabrics and furniture. With research and practical tasks across historical and contemporary styles and trends, you'll develop high-level documentation and technical skills in order to respond to professional briefs for both residential and commercial clients. You'll develop a deeper understanding of commercial and residential interiors, spatial layout, furnishings and decorative treatments, and the documentation process.

- Creativity and Self-Expression.
- Improved Design Skills.
- Increased Understanding of Spaces.
